## V I M A

---

Marion Fortat

**Type** Vase

---

Vima is a sculptural glass series that explores the quiet power of form, mass and light. Monolithic yet refined, the collection is defined by clean geometry and a strong architectural presence.

Inspired by arches and passages, each piece is characterised by stepped forms and subtle variations in glass thickness. These shifts allow light to move through the glass, creating depth, reflections and soft shadows that change with angle and placement.

Vima is designed for living spaces, home offices and rooms for contemplation, and is particularly striking in bright interiors and near windows. While the vases serve a clear everyday function, the collection also invites to pause and reflection - objects to be turned, observed and experienced over time.

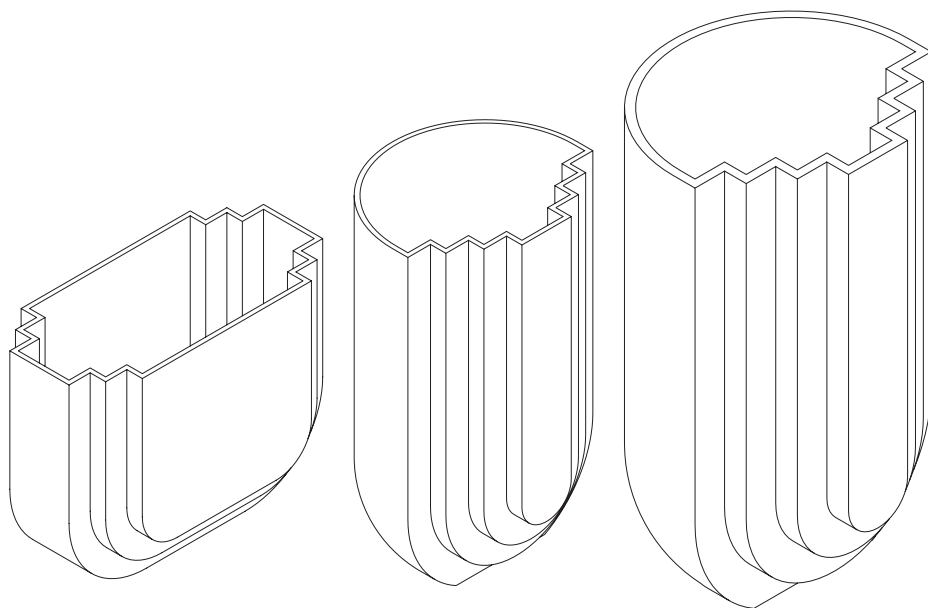

Crafted in solid glass, the Vima collection is available in clear and smoked glass and comes in three sizes: oval, medium and large. With its timeless form and durable material, Vima is designed to be cherished for years to come.

The name VIMA is inspired by the idea of MONOLITH and reflects both material and authorship: VI from vitrum (glass) and MA from Monu-MA and Marion. Together, the name resonates with both glass and mass - an intentional reference to the collection's solid, sculptural character.
